

Exciting News: Amphenol Procom DK Achieves REX Status!

Description

We are proud to announce that Amphenol Procom DK is now a Registered Exporter (REX) under the European Union's trade arrangement. This milestone enables us to bring significant benefits to our customers worldwide, allowing customs duty exemptions on goods originating from Denmark under applicable trade agreements.

Key Benefits for our Customers participating in the REX system

Cost Savings

Customers in countries participating in the REX system, including the UK, Canada, Japan, Vietnam, and others, can benefit from customs duty exemptions on eligible products, reducing import costs.

Key Benefits for our Customers participating in the REX system

Cost Savings

Customers in countries participating in the REX system, including the UK, Canada, Japan, Vietnam, and others, can benefit from customs duty exemptions on eligible products, reducing import costs.

Streamlined Customs Process

REX status simplifies customs procedures, ensuring faster and more efficient delivery of our high-quality products to your location.

Enhanced Competitive Edge

Lower import costs enable you to optimise pricing strategies and strengthen your market position.

Action Required

To take advantage of these benefits, ensure that your customs declarations include the REX number provided on our commercial invoices. Our team is here to assist with any questions or guidance you need.
