

Green Milestone: ISO 14001 Certifications Achieved!

Description

We are proud to announce the successful completion of our ISO 14001 audit, which has resulted in the recertification of our UK site and the obtention of certification for our DK site! This achievement reflects our continued commitment to environmental responsibility and sustainability.

This certification reinforces our efforts to minimise environmental impact and operate in accordance with the highest environmental standards. It's a significant milestone for our team and a testament to our shared values.

Looking forward to even more milestones as we continue our sustainability journey!
