

## Military

### Description

## Military

**In all military and defense operations it is vital to be able to communicate, usually on a secure communication line, on land in the sea or in the air. Reliable communication is critical, sometimes ensuring the safety of life, for military personnel. Good communications will also assist their units ability to complete their critical missions. Which is why only the best, most reliable and highest performing RF equipment is good enough in defense markets.**

The communication must work among a wide range of user groups including troops in the field, base control and with other supporting forces who are in combat or conflict at the same time. Communication

---

must be able to reach a control room ?? typically at another location far away from the action.

**We manufacture and supply products for mission critical operations, such as the Army, Coast Guards, Air Force, or Navy.**
